

Competitive Comparison

Xerox WorkCentre® C2424 vs. Lexmark X762e MFP

The WorkCentre C2424 is clearly the better performer with more value

- **Faster first page out time**
- **Easier to install, use, and maintain**
- **Integrated scanner**
- **More total paper capacity**
- **Hard disk standard**

	WorkCentre C2424	Lexmark X762e MFP
Faster first page out time • Get a color document 3-times faster with the WorkCentre C2424	6 seconds	15 seconds
Copier/scanner is fully integrated • The WorkCentre C2424 is a compact unit that is more user- and IT-friendly	Fully integrated MFP needing only one power cord and one network drop	Loosely coupled scanner on a separate rack with two network drops, two power cables, and two power switches
More compact size • The WorkCentre C2424 can fit more easily into tight office environments, and is easier to move	Minimum height: 27.7 in. Maximum weight: 96.8 lbs	Min. height: 51 in. Max weight: 190 lbs
Larger hard drive is standard • The WorkCentre C2424's hard drive enables valuable features like Saved/Secure/Proof Print, compressed page pipelining, collation, and extended font storage	40 GB standard	Optional 10 GB
More maximum memory	1 GB	512 MB
Handles heavier media weights • Superior flexibility for more reliability and creative freedom	Main trays: Up to 120 gsm Bypass: Up to 220 gsm	Main trays: Up to 90 gsm Bypass: Up to 203 gsm
Faster color scan speed	Up to 20 ppm color/black	14 ppm color, 23 ppm black
More scanned image file types	PDF, TIFF, JPEG, GIF & BMP	PDF, TIFF, JPEG, PS
Better language support • True Adobe PostScript allows for more accurate printing	Adobe® PostScript® 3™, PCL 5c emulation	PostScript level 3 and PCL6 emulations
More color controls • More color correction options add flexibility for more true, accurate color	TekColor® and Automatic Color Correction, ColorSync, ICC profiles	Automatic Color Control, ColorSync, ICC profiles
Superior printer management tools • All the tools users and IT staff need to maximize uptime and stay productive	CentreWare® IS embedded Web server, CentreWare Web, job accounting, e-mail notification, Usage Analysis Tool	MarkVision
Total Satisfaction Guarantee	Yes	No

Other WorkCentre C2424 Advantages

Simple design = simple maintenance

The WorkCentre C2424 printer's technology is legendary for its ease of use. Loading ink is as easy as loading a stapler...even a child can do it.

WorkCentre C2424

Lexmark X762e MFP

To access the toner on the Lexmark device, a user must hold open the front cover that houses the toners with their right hand, use their left hand to pull out a hooked rod, rotate the rod 45 degrees counterclockwise, secure the hook under the cover, and then release the cover with their right hand. Once released, the cover sags under its own weight.

Fully integrated system

The WorkCentre C2424 is a fully integrated multifunction device that works seamlessly together as a unit.

The Lexmark X762e MFP has a separate scanner that resides on a rack and uses cables for the two devices to communicate.

It has two power switches on the back of the device, which have to be turned on in the correct order or the device will report a communication error.

Furthermore, the two power cables go to a power supply "brick" that lies on the floor. The device also has two network cables with two separate drops, which most IT folks will not appreciate.

Lastly, the size of the Lexmark X762e MFP is much larger than the Xerox device.

WorkCentre C2424

Easier To Use

Fast printer and scanner driver installation

One of the easiest print/scan driver installation procedures on the market today gets users setup and working in just minutes.

Xerox PrintingScout

PrintingScout provides instant, detailed, on-screen alerts with solution instructions, so you can quickly and easily fix the problem before the job prints.

- Eases the burden on IT because users get instant step-by-step graphic instructions on how to fix the problem themselves
- Users get their print jobs faster and stay more productive

Xerox PhaserSMART® automated troubleshooting

- PhaserSMART performs a remote diagnostic on the printer and automatically provides feedback and step-by-step solutions
- Turns a potential service call into a simple automated solution
- No need to search an online database for the printer's problem
- Saves time and money and keeps offices self-sufficient and productive by avoiding service or help desk calls

More Versatile Device

The WorkCentre C2424 is a more versatile device that fits into a small-to-medium workgroup better than the Lexmark X762e MFP.

SCANNING

The WorkCentre C2424 can scan documents into more file types, including PDF, TIFF, JPEG, GIF, and BMP.

- Lexmark converts to PDF, JPEG, TIFF only.

DOCUMENT HANDLING

- The WorkCentre C2424 handles heavier media weights up to 80 lb cover or 220 gsm.
- The Lexmark X762e MFP will feed only up to 53 lb bond or 203 gsm.
