

Xerox FreeColorPrinters Program

World class color with no up-front costs.

What You Get with the FreeColorPrinters Program

- A free ColorQube 8570/DN or ColorQube 8700/X solid ink color printer—yours to keep after 3 years
- Free shipment of printer directly to your office
- A free 3-year service agreement covering phone and on site technical support

Peace of Mind

Our Xerox printers keep your data safe and secure, giving you peace of mind:

- **ColorQube 8570** – does not use a disk drive, so no user data is stored in the printer
- **ColorQube 8700** – uses a disk drive and is supported by powerful security features, such as Image Overwrite which safely removes user from the disk drive
- Xerox is the only printer manufacturer that provides security patches to users to help ensure their data remains safe and secure

Sustainable, High Quality Printing

The ColorQube 8570 and ColorQube 8700 use safe, nontoxic inks in the form of solid blocks:

- Requires fewer consumables than laser
- Less waste goes in landfills
- Total waste produced from printing 4,000 pages per month for 4 years:
19 pounds for solid ink, 246 pounds for laser

How the Program Works

- Submit a no-risk application at www.freecolorprinters.xerox.com
- Print your self-selected monthly page commitment and submit a monthly usage report
- Purchase your printer supplies exclusively from our online store at competitive market pricing

If you agree with all of these statements, the FreeColorPrinters Program is right for you!

- The largest paper size I need to print on is letter/legal (up to 8.5" x 14")
- I print over 2,000 pages per month, either in-house or out-sourced
- 50% or more of my printouts are in color
- I spend \$150+ per month on printer supplies
- I have been in business for over six months
- I do not work out of my home
