Xerox Scan to PC Desktop®

Scanning Made Easy and Personal

Increase your office productivity by enhancing document efficiency.

Xerox® Scan to PC Desktop® is the solution your company needs to harness the full potential of your multifunction printer (MFP). Designed for offices of all sizes, Xerox® Scan to PC Desktop Professional provides a personalized document-scanning platform that allows both efficient document capture and powerful desktop document management.

It simplifies things by handling everything your office handles now, plus elements that Microsoft® Windows® and SharePoint® don't handle well—like scanned paper and PDF. Plus, with Xerox® Scan to PC Desktop, you can effectively replace manual paper processes with efficient document sharing over email, the Web, and document management systems.

Xerox® Scan to PC Desktop comes in a variety of configurations to support the needs of growing businesses. The comparisons below can help you decide which option is best for you.
