

Solid Ink Printers and
Multifunction Printers
from Xerox

Xerox® ColorQube® Printers and Multifunction Printers

It's time to rethink your ink.

Solid Ink Printers and Multifunction Printers from Xerox

Only Xerox can deliver on the promise of affordable color for every document, every day. Xerox has the patented Solid Ink technology to make it practical. Built from the start for high-performance office color printing, our Solid Ink technology has a 20-plus-year track record of reliability. Solid Ink is simple to use, produces stunning color print quality, produces less waste and enables low cost color for small businesses and global corporations alike. Give your team the full advantage of Solid Ink, and get every Xerox innovation and advanced feature across our range of Solid Ink printers and multifunction printers.

Spectacular color quality, more affordable than ever. That's Xerox® Solid Ink.

We make it possible. You get the credit.

The Solid Ink Range

Great color, low environmental impact and advanced ease-of-use for your work team.

Xerox® ColorQube® 8580

Xerox® ColorQube® 8700

Xerox® ColorQube® 8880

Incredibly low total-cost-of-ownership for high volume office environments.

Xerox® ColorQube® 8900
(Image includes additional options)

Make everyday business more colorful.

In the business world, nothing's really black-and-white. That's why you need color – to clarify, to emphasize, to stand out. In addition, with our range of Xerox® ColorQube® printers and multifunction printers with Solid Ink, colors are vibrant, glossy and perfect for all office documents when the “right” colors are a must.

- **Consistent color.** Solid Ink technology delivers consistent color, print after print – important for long print jobs or multiple prints of the same page. Solid Ink also prints consistently printer to printer. That means documents printed at the branch office look exactly as they do when printed at headquarters.
- **More color possibilities.** Xerox® Solid Ink prints a wider range of colors than most color laser devices. Count on Solid Ink technology to accurately print the colors you expect, with the smoothest blends and gradients – even tricky mid-tones like sky and skin.
- **Professional-quality color matching.** When color accuracy is a must, built-in PANTONE® spot-color correction tables ensure true renditions of your important business colors.

Original photo not right? Use the Color By Words drop-down list and choose “yellow-green colors a lot more green,” and “red colors a lot more saturated.” Picture-perfect results.

Color By Words: Unique Color Control

Have you ever wanted to change the color of one object or area in a printout without affecting the rest of the page? With the Color By Words feature there is no need to go back to square one and manipulate source files. You simply select the desired color modifications from a drop-down list and Color By Words will adjust your printout.

A4 Xerox® ColorQube® Multifunction Printers

Total waste produced from printing 4,000 pages per month for 4 years: Solid Ink: 19 lbs; Laser: 223 lbs

Make your office greener.

It's all made possible with Xerox® Solid Ink, the office color solution with a cartridge-free design and minimal packaging. That simple combination means less to manufacture, drastically reduced waste, and less storage space for better transportation efficiency – saving you shipping costs while lessening the environmental impact*.

*Cartridge-free Solid Ink: Less to manufacture, no empty toner cartridges to dispose or recycle, and less storage space required than comparable laser devices. Solid Ink printers produce up to 90 per cent less printing waste during use than comparable laser devices (based on lifecycle assessment performed November, 2011).

For more information, go to www.xerox.com/SolidInkLifeCycle

- **Fewer consumables.** No big, bulky print cartridges, or fusers, fuser oil or imaging units found in a typical color laser printer. Besides Solid Ink sticks the only other replaceable item is a maintenance roller/cleaning unit, which lasts for tens of thousands of pages and only needs to be replaced a few times throughout the life of your device.
- **Think globally. Act locally.** Solid Ink packaging is made from post-consumer waste that can be recycled locally where options are available.
- **EarthSmart print driver settings.** Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.
- **Bio-derived ink.** Xerox® Solid Ink has been certified to have 30% bio-derived renewable material content by the National Association of Printing Ink Manufacturers (NAPIM).
- **Recycled paper welcome.** With Solid Ink, there's no need for "special" recycled paper. Print on any recycled stock – or almost any media, period – and get vibrant, high-quality color. Plus, Solid Ink printouts are completely recyclable.
- **Bundled GreenPrint software.** The standard GreenPrint tool automatically detects unnecessary pages, such as those with only a web address or a meaningless picture, and lets you select the pages you actually need to print, helping you reduce paper and toner usage.
- **Efficient printing.** The Solid Ink imaging process is extremely efficient, producing nearly 100 per cent ink-to-page transfer during normal printing.

Business-enhancing ease of use.

Superior color made easy. Whether you need robust printing or the additional capabilities that come with a true multifunction powerhouse, our Xerox® ColorQube® devices make office life easy.

- **Your solid advantage.** Xerox® Solid Ink sticks are cartridge-free and engineered for maximum ease of use. Each Solid Ink color is uniquely shaped for easy drop-in loading, and ink can be topped off at any time – no downtime to reload.
- **No mess.** Solid Ink is non-toxic, safe to handle, and won't stain clothes, skin or furniture.
- **Easy administration.** Xerox® CentreWare® Internet Services, a web server built into the device, simplifies installation, cloning and network administration, and provides quick access to device and job status, accounting information and online support.
- **Save valuable real estate.** Solid Ink packages are small enough to easily fit in your desk drawer. There's no need to take up an entire cabinet with printer supplies.
- **Ready when you are.** Our Intelligent Ready technology monitors usage history and automatically warms up just before the first page of the day is anticipated.

Xerox® Workflow Solutions make your office more productive.

Transform the way your organization gets vital work done with the power of Xerox® Workflow Solutions. When people work efficiently, in less time and with fewer steps, productivity goes up. Stress goes down. So do errors. Whether you have only a few people on your team or a very large workgroup, Xerox offers a wide range of MFPs that deliver flexibility and advanced features to copy, print, scan and fax—all from one device. It's about streamlining your workflow and it starts by using Xerox® Workflow Solutions right from your MFP.

Print more color for less.

If you print lots of pages and lots of color, Xerox® printers and multifunction printers using Xerox® Solid Ink can help you realize significant savings on 70% of the color printing you do every day. You get exceptional value, with a total cost of ownership that's hard to beat.

With the Xerox® ColorQube® 8880 or Xerox® ColorQube® 8900, how you pay for the Solid Ink you use is completely up to you, with two breakthrough cost saving options to choose from: Hybrid Color Plan or pay as you go.

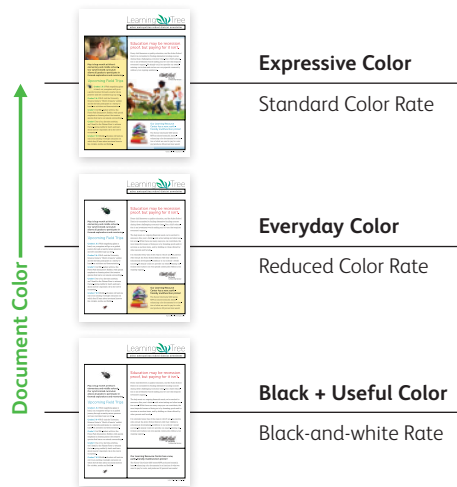

Hybrid Color Plan

If you like the simplicity of metered billing, choose the ColorQube 8880 or ColorQube 8900 and take advantage of high-impact color with the Hybrid Color Plan. It classifies documents based on the actual amount of color used – no longer pay full-color prices for low-color documents!

The three tiers of the Hybrid Color Plan:

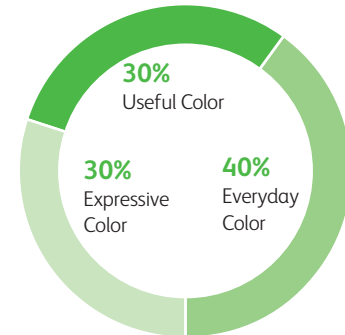

- **Black + Useful Color.** Billed at the black-only rate.
- **Everyday Color.** Billed at a fraction of the full color cost.
- **Expressive Color.** Billed at the current market rate for color.

Hybrid Color Plan

Typical Office Document Color Distribution

Office color documents can be classified by the amount of color used. According to Xerox research, the breakdown of color documents in a typical office environment is:

Pay As You Go

If you prefer replenishing your Solid Ink as you need it rather than committing to a service plan, consider paying as you go with the ColorQube 8880.

Pay As You Go

Color

Same low price!

Black-and-white

Find out how much your documents could cost by analyzing and comparing them with our online tool at <http://www.preton.com/PAX.asp>.

Cutting edge security and mobility.

Our Xerox® ColorQube® devices help you minimize risk by protecting vulnerable access points and critical business information. Plus, new advancements in mobile printing technology let you send your jobs from any email enabled device to any Xerox® printer.

Secure in Every Way

- **Keep documents safe.** Ensure your data stays secure with AES 256-bit encryption that meets current FIPS 140-2 requirements* and require a password to open and view a sensitive document by scanning to password-protected PDF.
- **Prevent unauthorized access*.** Restrict usage by validating user names and passwords with Network Authentication. Additionally, our Smart Card Authentication options require cardbased identification to protect the device from unauthorized users.
- **End-to-end protection.** Ensure device security with full system Common Criteria (ISO 15408) certification*. With our proactive response system, quick updates are provided whenever potential vulnerabilities are identified.

Powerful solutions that help you connect in the office or on the go.

- **Apple® AirPrint™.** Print email, photos and important office documents directly from your Apple iPhone® or iPad® with no drivers to install. With AirPrint, your iPhone or iPad automatically locates and connects to the AirPrint-enabled device over your office Wi-Fi network.
- **Xerox® Print Service Plug-in for Android™.** Android printing is simple without third-party apps or print drivers. This plug-in lets you easily print to a Xerox® MFP through a wireless network.
- **Xerox® Wireless Print Solutions Adapter.** The optional adapter seamlessly connects your Xerox® printer or MFP to modern mobile and desktop workflows, regardless of your office environment. For more information, visit www.xerox.com/WPSA.

- **Xerox® Mobile Link App.** Scan, email and fax from your phone or tablet by connecting with our multifunction printers and send data to and print data from cloud storage. It's easy to create Mobile Link One-Touch Workflows between a mobile device and a multifunction printer. Using a manual address or QR code identification for pairing, automatic device discovery makes it easy to find and pair a mobile device with a nearby Xerox® multifunction printer.

Xerox® Mobile Print Solution

We're empowering today's mobile professionals with the freedom to send print jobs from any email-enabled device.

- **Simple.** There's no software to load on the mobile device, no searching for online printer information or time wasted looking for the right application. This solution works with any email-enabled device. Plus, there's no dependence on administrative support staff for printing tasks.
- **Convenient.** Whether they're traveling or working between offices, users will be able to print Microsoft® Office documents, including Microsoft® Word®, Excel® and PowerPoint®, as well as PDFs.
- **Secure.** Mobile workers can print directly from their mobile devices and retrieve documents at an enabled Xerox® multifunction system with a secure confirmation code. Mobile professionals will no longer have to rely on others to print sensitive documents or risk leaving prints in the output tray.

Powerful Partnerships

Xerox® devices built on ConnectKey® Technology include McAfee® integration powered by Intel Security, resulting in the industry's first lineup of multifunction printers that protect themselves from potential outside threats. McAfee whitelisting technology ensures only safe, pre-approved files or functions are executed on your devices, minimizing the need to manually update software levels against new security threats. Also, seamless integration with the Xerox® Managed Print Services toolset and McAfee ePolicy (ePO) allows for easy tracking and monitoring.

Plus, automatic Cisco® TrustSec Identity Services Engine (ISE) integration provides comprehensive visibility of all of these MFPs' endpoints to enforce IT-centric security policies and compliance.
