WorkCentre® 7120 / 7125 Multifunction Printer

Efficiently powerful performance. Seamlessly create and share business-critical information, in full office colour, and take your business or workgroup to a higher level of performance – without hurting the bottom line.

Streamline your processes

Increase productivity with powerful workflows that optimise business efficiency. The compact WorkCentre 7120 / 7125 is loaded with features that save time and simplify device management.

- **Fast output.** Copy and print both single-sided and two-sided documents at up to 20/25 ppm in colour or black-and-white.

- **Scan, print, copy, fax and route files – all at once.** Concurrent operation maximises office productivity, letting multiple users perform different office tasks simultaneously.

- **Never wait for a critical print job.** The Print Around feature holds a job in need of resources (such as a special paper size) and prints the next job in the queue.

- **Superior scanning.** Easily share files or introduce electronic archiving with powerful scan capabilities. Create text-searchable files at the device for easy retrieval. Compression technology reduces network load to enable fast transmission.

- **Automate everyday workflows.** Create job flow sheets to automatically route documents to predefined locations, including email addresses, fax destinations and FTP/SMB sites.

- **Remotely manage the device.** CentreWare® IS Embedded Web Server automates installation, troubleshooting, feature set-up and upgrading.

- **Easy, accurate billing and supplies replenishment.** Smart eSolutions MeterAssistant® collects and submits meter reads and SuppliesAssistant® enables automatic ordering of ink to save time. (May not be available in all DMO regions).

Responsible colour

The budget-friendly WorkCentre 7120 / 7125 helps you manage costs and save money.

- **Customise your print driver settings** for economy and efficiency. For example, set two-sided printing or choose N-up for printing multiple pages on a single sheet as your default. Adjust settings for specific applications, such as always printing emails in black-and-white.

- **Manage and track device usage.** Internal Auditron sets limits of device features for analysis and billing purposes. Xerox Standard Accounting provides reports for greater cost control of all device functions. Advanced solutions from Xerox Alliance Partners deliver even more helpful tools for larger office environments.

- **Reduce fax costs.** The Fax over IP kit sends and receives faxes using the T.38 protocol.

Easy on the environment

The WorkCentre 7120 / 7125 multifunction printer conserves natural resources with no loss of performance, reliability or output quality.

- **Reduce energy consumption with Xerox innovations.** A scanner based on LED lighting instead of traditional Xenon lamps consumes only 1/3 the power. Plus, EA Ultra-low Melt toner requires a lower fusing temperature than traditional toner while offering glossy, beautiful office graphics.

- **Work quietly.** Our quietest workgroup colour MFP stays productive while emitting low noise levels.

- **Save paper** with two-sided printing. Or go paperless and distribute digital files quickly and easily.

- **Paperless faxing.** LAN Fax sends faxes directly from applications on your desktop. Incoming faxes can be viewed as thumbnail images on the user interface – so you only print what's important.

WorkCentre® 7120 / 7125 Quick Facts

- Print/copy up to 20/25 ppm colour and black-and-white
- High impact colour with built-in control and accounting
- Powerful scan and fax capabilities
- Robust security features
- Space-saving footprint
- Paper capacity up to 2,130 sheets

Print / Copy / Scan / Fax / Email

Security without IT

Robust security features safeguard the full gamut of entry and exit points to ensure the safety of critical information. Implement enterprise security solutions without the need for skilled IT know-how.

- **Secure Print** keeps documents private by holding print jobs in the queue until the user enters the password.

- **Password protected PDFs** require a password to open and view a sensitive scan.

- **Keep your information safe** by encrypting resident data on the device and electronically erasing images on the hard drive.

- **Email over SSL** protects communications to prevent identity theft.

- **Full system Common Criteria (ISO 15408) Certification*** at EAL3 ensures that the WorkCentre 7120 / 7125 conforms to the most stringent security standards and regulations.

Fits your office

1
With a compact footprint, the WorkCentre 7120 / 7125 delivers more functionality while taking up less space. Add basic finishing capabilities with the space-saving Integrated Office Finisher.

2
Duplex automatic document feeder holds a generous 110 sheets of paper.

3
50-sheet bypass tray for specialty media and sizes.

4
Choose the configuration that meets your needs: a two-520-sheet tray with stand configuration holding up to 1,040 sheets of A3 paper, or a four-tray configuration holding up to 2,080 sheets.

5
Office Finisher LX (with Booklet Maker option) provides advanced finishing functions.

Simplifies your workflows

1
The large, 7-inch colour touch screen makes it easy to find the functions you need. Preview scan jobs and documents stored on folders before printing.

2
Extend the functionality of your WorkCentre 7120 / 7125. With Xerox Workflow Solutions, you can connect to document processing tools needed to get your work done faster, more efficiently and more effectively.

3
USB Port option lets you scan to or print from any standard USB memory device for portability and convenience.
