The United States Trade Agreements Act (TAA)-compliant Xerox® Printers and Multifunction Printers (MFPs)

Xerox offers a robust lineup of printers and MFPs tailored specifically for government use, in accordance with the US Trade Agreements Act (TAA), a mandatory requirement for many of today's contract procurements. Our comprehensive security approach includes measures to prevent unauthorized access, detect and protect against malicious attempts, and safeguard data and documents. This includes CAC/PIV solutions for NIPRNet and SIPRNet, as well as Common Criteria Certification for Xerox® VersaLink® and AltaLink® MFPs. In addition, we go above and beyond compliance requirements for the world's most widely recognized certifications related to environmental performance, such as ENERGY STAR® and EPEAT®. Below is a selection of TAA-compliant Xerox® Products:
