

Boost Revenue and Foot Traffic with Secure Kiosk Print Services

Experience the future of on-the-go printing with the Xerox® Workplace Kiosk.

Today's flexible workers need access to services like copying, printing, scanning and faxing— but locating those services outside of the home or office isn't easy. While that might have been an occasional inconvenience in years gone by, today it's become a major productivity killer. It's a trend worth reacting to.

25–30%
of the global workforce will work remotely several days a week by the end of 2021¹.

The Xerox Workplace Kiosk provides a revolutionary print, pay, go experience, perfect for on-the-go workers.

This Kiosk solution provides cutting-edge print, copy, scan and fax technology and can boost revenue and earn unwavering customer loyalty.

A game changer in the print industry, the Workplace Kiosk can be placed in almost any environment. Customers simply scan a QR code on the printer to transform their mobile device into a remote multifunction printer. An intuitive, touchless, hassle-free experience.

Xerox® VersaLink® C415 Color Multifunction Printer

UNLEASH NEW REVENUE POTENTIAL

Rapid setup and easy web-based administration makes owning or operating stress free.

ATTRACT FOOT TRAFFIC

Drive new foot traffic with an atmosphere that's conducive to productivity.

INCREASE CUSTOMER SATISFACTION

Offer a convenient one-stop solution for customers and flexible workers.

PROVIDE SECURE, SELF-SERVICE SIMPLICITY

No public network access needed. Customers initiate a touch-less connection directly to the printer from their mobile device—no app required.

¹Global Workplace Analytics: Global Work-At-Home Experience Survey

Print. Pay. Go.

A solution designed to fit anywhere.

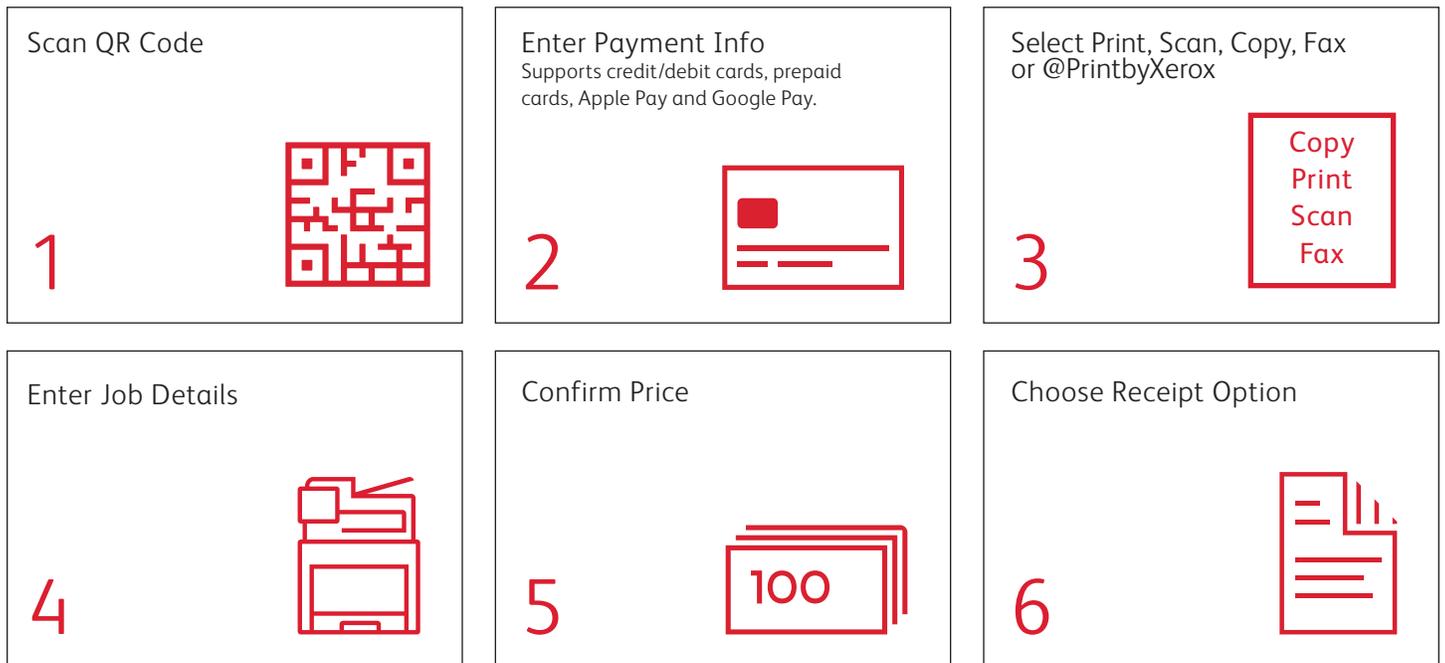

With no app to download, a secure, easy-to-use print, pay, and go solution is as simple as capturing a QR code.

Xerox® Workplace Kiosk appeals to user desire for contact-less payments and touch-less solutions. The Kiosk experience is built around simple engagement from both iPhone and Android devices, with

fast, secure checkout via credit/debit cards, prepaid cards and even Apple Pay or Google Pay. It's a tightly integrated hardware/software solution, with the industry's highest resolution for crisp text, brilliant graphics and images, and outstanding color performance.

When users scan the QR code on the Kiosk welcome screen, their mobile device connects directly to the printer. To operate, they simply follow a series of screen prompts on their own device.

Customers can print a wide variety of file types by attaching files to an email and sending to email@PrintbyXerox. Once sent, they will receive a release code that, when entered at the kiosk, prints all the attached files.
