

# Xerox® ConnectKey® Apps

Get connected. Streamline business processes and automate repetitive tasks with apps for your Xerox® ConnectKey® Technology-enabled Multifunction Printer (MFP) or printer.

# Xerox® ConnectKey® Apps

Discover innovative apps that open up surprising new capabilities, making your Xerox® ConnectKey® Technology-enabled printer a truly digital workplace assistant to streamline your workflows and get more done.

## GATEWAY TO NEW POSSIBILITIES

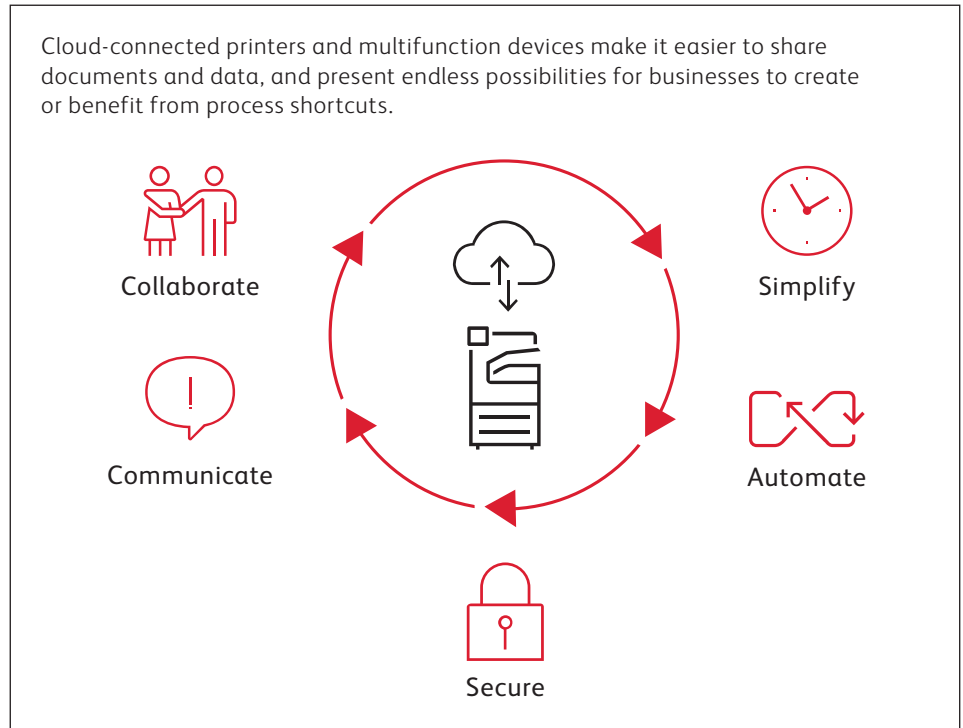

Many businesses spend far too much time dealing with inefficient processes that are essential to operate. Many of these have manual and time-consuming steps with a risk of errors creeping in causing more unnecessary problems and delays to deal with. Xerox® ConnectKey® apps open new possibilities for a more efficient workplace. Automate document workflows, connect to key business systems, and convert files to usable formats.

## LEVERAGE YOUR INVESTMENT

Paper-based processes still exist for many of us. Driven by app technology, our workplace assistant can simplify, automate, or even remove certain processes to reduce costs, improve productivity, and leverage your investment. Now, your MFP or printer can take center stage in your everyday business operations.

## ADD SMART BUSINESS FUNCTIONS AND CAPABILITIES

Just like your smartphone or tablet, apps instantly add new capabilities for your business needs, such as the ability to transform hard-copy documents into editable formats, translate them into over 40 languages, or even convert handwriting to text.

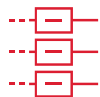

Apps can be your interactive help desk, allowing you to order supplies, request a service, and even update you on progress. Apps can help you route and process business-critical documents such as forms, invoices, and expense receipts automatically and effortlessly.

## SECURITY AT THE HEART OF XEROX® CONNECTKEY® TECHNOLOGY

Whether you choose to connect your workplace assistant to in-house or cloud-based solutions via an app, ConnectKey Technology uses the highest levels of security, ensuring your device and data are kept completely safe and secure.

### KEY BENEFITS OF STREAMLINING BUSINESS PROCESSES USING XEROX® CONNECTKEY® APPS

Fewer steps for the same process — improves overall business productivity, reduces potential errors, and lowers costs.

Easier to embrace and use technology as it requires minimal to no training.

Increased security of business-critical information thanks to direct connections, so fewer mistakes are made.

# Xerox App Gallery

## An Ever-expanding Marketplace

Choose from 100+ apps.

### GET CONNECTED

Through the Xerox App Gallery, you have immediate visibility to apps that allow you to scan, print, convert, compare, share, and communicate in ways you never thought possible.

A one stop location where you can check out free trials, purchase and install apps, and manage devices at the touch of a few buttons.

### VIA PC

If you have more than one ConnectKey Technology-enabled printer on your network and wish to install apps on multiple devices at the same time, the Xerox App Gallery can be accessed from your PC.

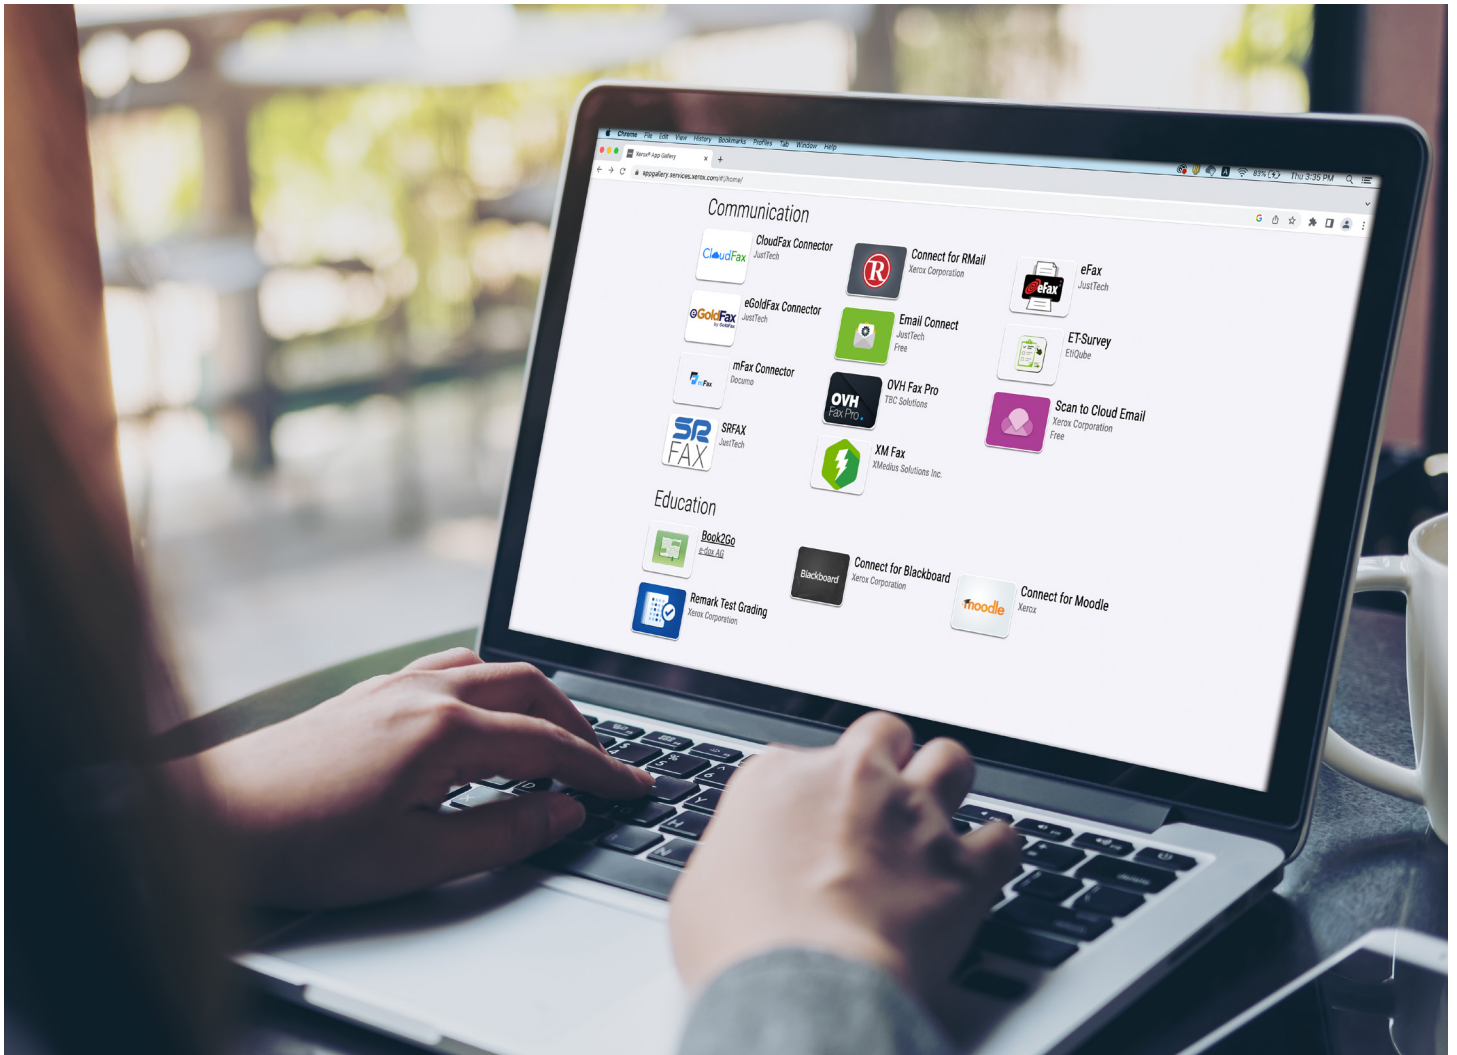

This allows you to add all your devices so you can deploy apps in one go. Access the Xerox App Gallery at

[www.xerox.com/AppGallery](http://www.xerox.com/AppGallery).

### VIA DEVICE

The Xerox App Gallery app comes pre-installed on every Xerox® Device built on Xerox® ConnectKey® Technology, allowing for simple browsing and installation of apps right from the user interface, with zero IT assistance. Just select the app you want, then tap to install — it's as simple as installing apps on your phone.\*

\*Device admin password is required to install the apps.

# Start streamlining your business processes with apps.

The Xerox App Gallery offers an array of proprietary and third-party apps, each of which can simplify or automate tasks in a way that saves your business time and money.
