MODE's entire selection of pre-made and customized furniture is hand-crafted in our state-of-the-art manufacturing facility. We offer a variety of traditional materials, including wood, glass and metal, as well as a wide selection of nontraditional elements, such as recycled plastics and composites. And with hundreds of unique fabrics, paint and other finishes to choose from, the possibilities are almost limitless.

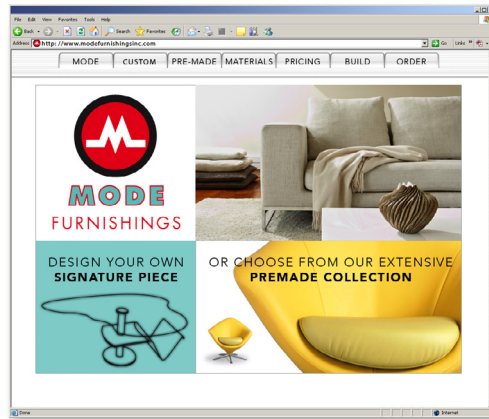

The natural splendor of hardwood adds a classic, enduring look, whether used for accenting or as the furniture's dominant design element. MODE Furnishings can customize your order with a wide variety of exotic, sustainably managed hardwoods, including ebony, mahogany, purpleheart, teak and many more.

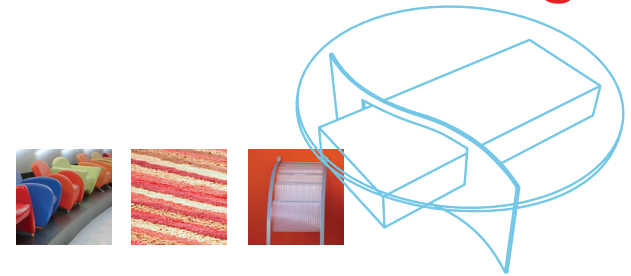

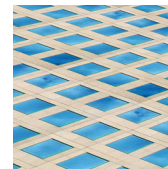

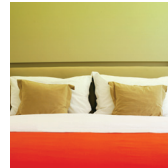

Your furniture says a lot about who you are.

Say it louder with **MODE** Furnishings.

Combining time-tested craftsmanship with Earth-friendly materials, MODE creates furniture that beautifully expresses your individuality.

Visit www.modefurnishingsinc.com — your gateway to all things MODE. You'll find design inspirations, pricing guidelines and order placement assistance. Use one of our unique design templates as a starting point, then choose the construction materials you want to make your vision become a reality. Approximately one week after receiving your order, we'll send you color, 3-D renderings of your custom-designed pieces, along with fabric swatches and/or paint chips, to give you a better idea of what your finished product will look like. Production times vary, but in most cases custom orders require approximately six weeks of in-house construction, which begins upon receipt of your order confirmation.

At MODE Furnishings, we're guided by your creativity. Helping our customers turn their visions into beautiful, functional furniture is our reason for being. Whether choosing from our huge collection of pre-made pieces or thinking about custom-furnishing your entire home or office, MODE provides unique design options, a diverse mix of materials to choose from, and an expert staff ready to help your ideas come to life.
